A. PURPOSE OF THIS NOTICE.

Chino Hills Family Medical Group (CHFMD) is committed to preserving the privacy of your health information. In fact, we are required by law to do so for any health information created or received by us. CHFMD is required to provide this Notice of Privacy Practices ("Notice") to you. The Notice tells you how we can and cannot use and disclose the health information that you have given to us or that we have learned about you when you were a patient in our system. It also tells you about your rights and our legal duties concerning your health information.

CHFMD is required to abide by this Notice and any future changes to the Notice that we are required or authorized by law to make. This Notice applies to the practices of:

- All CHFMD employees and service providers, including clinicians, who have access to health information.
- Any health care professional authorized to enter information into your CHFMD health record.
- Any non-CHFMD clinicians who might otherwise have access to your health information created or kept by CHFMD, as a result of, for example, their call coverage for CHFMD clinicians.

For the rest of this Notice, "CHFMD," "we" and "us" will refer to all services, service areas, and workers of CHFMD. When we use the words "your health information" we mean any information that you have given us about you and your health, as well as information that we have received while we have taken care of you (including health information provided to CHFMD by those outside of CHFMD).

We will have a copy of the current Notice with an effective date in office locations and on our website at <http://www.chinohillsfmg.com>

B. USES AND DISCLOSURES OF HEALTH INFORMATION FOR TREATMENT, PAYMENT AND HEALTH CARE OPERATIONS AT CHFMD.

1. Treatment, Payment and Health Care Operations.

The following section describes different ways that we use and disclose health information for treatment, payment and health care operations. For each of those categories, we explain what we mean and give one or more examples. Not every use or disclosure will be noted and there may be incidental disclosures that are a byproduct of the listed uses and disclosures. The ways we use and disclose health information will fall within one of the categories.

- a. For Treatment. We may use your health information to provide you with medical treatment or services. We may disclose your health information to physicians, physician assistants, nurse practitioners, and other personnel involved in your health care. c. For Health Care Operations. We may use and disclose your health information in order to run the necessary administrative, educational, quality assurance and business functions at CHFMG. We may also use health information about patients to help us decide what additional services we should offer, how we can improve efficiency, or whether certain treatments are effective.

Family and Friends- If you tell us we can do so, we may provide your health information to individuals, such as family and friends, who are involved in your care or who help pay for your care. There may also be circumstances when we can assume, based on our professional judgment, that you would not object. For example, we may assume you agree to our disclosure of your information to your spouse if your spouse comes with you into the exam room during treatment.

Also, if you are not able to approve or object to disclosures, we may make disclosures to a particular individual (such as a family member or friend), that we feel are in your best interest and that relate to that person's involvement in your care. We may also make similar professional judgments about your best interests that allow another person to pick up such things as filled prescriptions, medical supplies and X-rays.
